Stock Units, Modified Displays and Custom Design Services

The stock unit pricing reflects an 8% discount from the parts list and includes assembly instructions. Stock units are available in a variety of finishes, with or without glass. Other shelving options such as wood, mirrored glass and acrylic can be custom ordered.

The configuration of any stock unit can easily be modified to meet your display or furniture needs or changed to allow for graphics. Our complimentary design service is available to assist with your ideas for specialized displays, furniture or fixtures. Email, fax or call us today.

Assembly

We encourage the use of the Abstracta Nylon Mallet (913) for assembly, the Abstracta Disconnect Tool (915) and Extractor Rod (EX-ABS) for taking 13mm units apart. A 10% discount will be applied to these three items when purchased with a stock, modified or custom unit. We recommend using a small amount of non-corrosive lubricant on the connectors prior to assembly. The 19mm system is designed for permanent use only.

Pricing for the 1075 units and 2006 pedestal series are available separately.
